Better Internet for Rural, Regional and Remote Australia (BIRRR) and Regional Tech Hub have contacted WISPAU and are keen for WISPAU to take over the WISP map they were currently operating and will allow member WISPs to locate towers / areas that they cover via the WISPAU portal and links from BIRRR and Regional Tech Hub to WISPAU website map.
- **Discussion on WISPAU member status levels and requirements for WISPs to meet and document for WISPs to self-check and meet requirements**
Telecommunication requirements via Codes / Standards and Legislation can be an issue for some WISPs, however there are requirements that need to be met and standards that WISPs should be aiming for. As such, there needs to be discussion on the requirements (and perhaps levels) that WISP members must meet to comply with requirements of today's telecommunications landscape. WISPAU will be presenting a document that outlines suggestions for requirements and will work on producing a document that gives guidance to WISPs to meet requirements.
